Candidate Challenge - Bonus

Bonus Challenge 🔗

Now that you understand the matching score is heavily determined on skill, create candidate in Eightfold that would have a perfect score. You can choose any position available.

Minimum Requirements 🔗

1. Must be included in the python code, can be a separate process

2. Provide details on the created candidate
   - Profile Details, as you see fit
   - The match score
   - Why the candidates are a great fit

3. Send a message on the same slack channel that a different Candidate has been found

4. Provide us with the final Python solution.

5. Prepare to include the bonus challenge and present the solution
